SUMMARY COMMENT

Are there particular efforts and/or issues that you would like to highlight for this reporting period related to your community's work to achieve the Reaching Home minimum requirements? In particular, please describe your community's efforts to set-up or improve the Coordinated Access governance structure, including processes to ensure that policies and protocols, as approved by the governance group(s), are being implemented across the system as intended to achieve desired results.

The community of Bathurst has had many setbacks due to Covid-19 which in turn has caused a delay in the implementation of Coordinated Access/Homelssness Individuals and Families Information System (HIFIS). The community of Bathurst and its Emergency Shelter will be using the module in Homelssness Individuals and Families Information System (HIFIS) is for Coordinated Access. The training is set for Fall 2021 and the implementation will follow. Without this system in place the community does not currently have all the tools needed to complete the implementation. The training for Service Prioritization Decision Assistance Tool (SPDAT) is no longer moving ahead and will be replaced with the Vulnerability Assessment Tool (VAT) instead. These tools will give the community what they need to track and document all required information.
